**DETAILED ACTION**

***Allowable Subject Matter***

Claims 1-22 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 1, and specifically comprising the limitation a cathode ray tube including a transmittance between 45 and 75% in the center portion, and where the ratio of the thickness at the diagonal end divided by the thickness at the center of the panel is between 1.4 and 2.2 and further the ratio of the thickness of the vertical axis end and the diagonal end is between 0.85 and 1.0.

Regarding claims 2-10, claims 2-10 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.

Regarding claim 11, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 11, and specifically comprising the limitation a cathode ray tube including a transmittance between 45 and 75% in the center portion, and where the ratio of the radius of curvature along the horizontal axis divided by the radius of curvature along the diagonal axis is between 1.0 and 1.9 and further the ratio of the radius of curvature along the vertical axis divided by the radius of curvature along the diagonal axis is between 0.3 and 0.9.

Regarding claims 12-22, claims 12-22 are allowable for the reasons given in claim 11 because of their dependency status from claim 11.
